

# BACKYARD BORES & DRILLING

## ENVIRONMENTAL SUSTAINABILITY POLICY STATEMENT

### INTRODUCTION

The earth's environment is under severe stress from uncontrolled human activity, threatening the survival of our society and the performance of Backyard Bores & Drilling's mission.

Backyard Bores & Drilling accepts that it must work to preserve the environmental sustainability of the planet, at all levels of its operations – in its own practice, as a participant in a community of practice, and as a participant in the Australian social discourse.

Backyard Bores & Drilling aspires to minimise its impact on our environment and maximise the effective use of resources. We strive to achieve this by increasing communication and awareness of our efforts in accordance with this policy and fostering responsible environmental behaviour amongst staff, volunteers, and clients at all levels.

Backyard Bores & Drilling is committed not only to complying with applicable law in all of its operations but to minimise risks and impacts through the development of robust and documented systems to implement, measure, monitor, and disseminate excellent environmental performance both within its operations and to the broader community.

### PURPOSE

This Environmental Sustainability Policy aims to integrate a philosophy of sustainable development into all the organisation's activities and to establish and promote sound environmental practice in our operations.

### POLICY

Backyard Bores & Drilling commits itself to minimising its impact on our environment through:

- ✓ Providing a low risk and healthful workplace;
- ✓ Having an environmentally sustainable aware culture, where responsibility is assigned and understood;
- ✓ Being an environmentally responsible neighbour in our community;
- ✓ Conserving natural resources by reusing and recycling;
- ✓ Using, in our own operations, processes that do not adversely affect the environment;
- ✓ Ensuring the responsible use of energy throughout the organisation;
- ✓ Participating in efforts to improve environmental protection and understanding;
- ✓ Taking steps to improve environmental performance continually;
- ✓ Conducting rigorous audits, evaluations, and self-assessments of the implementation of this policy;
- ✓ Working with suppliers who promote sound environmental practices; and
- ✓ Enhancing awareness among our employees, volunteers and clients – educating and motivating them to act in an environmentally responsible manner and conserve resources

## ENVIRONMENTAL SUSTAINABILITY PROCEDURES

### RESPONSIBILITIES

It shall be the responsibility of the management team to establish and maintain policies and procedures and to bring these procedures into effect.

It shall be the responsibility of the manager to ensure implementation of these policies and procedures.

### PROCEDURES

Backyard Bores & Drilling will develop guidelines for staff, volunteers and clients to adopt sound environmental work practices, and adequate training will be provided to ensure these practices are carried out.

Backyard Bores & Drilling will act responsibly to correct incidents or conditions that endanger health, the environment or increase risk. It will promptly report any such incidents to the relevant authorities and inform affected parties as appropriate.

Backyard Bores & Drilling will, use reasonable endeavours to reuse and recycle materials, purchase recycled materials, and use recyclable packaging and other materials.

Backyard Bores & Drilling will use all reasonable endeavours to ensure that its services and products are low risk, efficient in their use of energy, protective of the environment and able to be reused, recycled or disposed of in a low risk manner.

Backyard Bores & Drilling will use all reasonable endeavours to minimise materials and energy use, prevent air, water, and other pollution, and dispose of waste safely and responsibly.

Backyard Bores & Drilling will use all reasonable endeavours to conserve energy by improving energy efficiency and giving preference to renewable over non-renewable energy sources when feasible.

Backyard Bores & Drilling will, use reasonable endeavours to utilise its particular knowledge and experience to contribute to environmentally sustainable techniques, technology, knowledge and methods.

Backyard Bores & Drilling will use all reasonable endeavours to contribute to the maintenance and increase of biodiversity through its management of its landholdings.

Backyard Bores & Drilling will use all reasonable endeavours to meet or exceed all applicable government requirements and voluntary requirements generally observed in its field, and will, in addition, adhere to the more stringent requirements of its own environmental policy.

In order to continually improve its environmental management system, Backyard Bores & Drilling will use reasonable endeavours to conduct audits and self-assessments of its compliance with this policy..

Backyard Bores & Drilling will maintain an open and honest dialogue with staff, volunteers, stakeholders, and the public about the environmental, health and safety performance of its operations and services.

Backyard Bores & Drilling will use reasonable endeavours to ensure that every employee, volunteer and contractor is informed of and expected to follow this policy and to report any environmental, health, or safety concern to management so that prompt action may be taken.
